

Rachael Turner-Percy
AESTHETICS

Aesthetics

Rachael Turner-Percy is an Aesthetic Practitioner with many years experience. Rachael has a wealth of training in advanced procedures, offering the very latest non-surgical, facial aesthetic procedures to help restore a more youthful appearance.

Rachael is proud to be part of the highly respected ACPB (Association of Cosmetic Practitioners in Britain), you can therefore rest assured that you are in the hands of a safe and competent practitioner.

Anti-Wrinkle Injections (Botulinum toxin injections)

Facial expressions such as smiling and frowning cause the muscles of the face to compress the skin. The excessive contraction of the major facial muscles can cause the formation of lines, furrows and wrinkles. Anti-Wrinkle injections can lead to a very noticeable and desirable reduction in these lines, wrinkles and furrows making the face appear softer and more youthful.

Dermal Fillers

from £189.00 :: 1ml

We offer a variety of both short term and longer lasting dermal fillers and volumisers. Dermal Fillers can last from 6 months up to 24 months depending on the filler used and the area being treated. Filler is injected under the skin into the dermis to add volume and diminish the appearance of lines and wrinkles in almost any area you require.

Lip Augmentation

£125.00 :: 0.55ml / £225.00 :: 1ml

Dermal fillers are used for Lip augmentation to enhance the appearance of thin, aged or asymmetrical lips. The treatment provides the perfect solution to enhance, shape or add volume to the lips and reduce surrounding wrinkles.

Cheek Augmentation

£290.00

Our volumising fillers will add volume and lift to the skin to diminish the signs of ageing. They also act as a scaffold under the skin, providing structure and stimulating your own natural collagen to grow. The production of natural collagen continues for several months, which extends beyond the initial effect of your filler.

Dermaroller

Dermaroller provides advanced micro-medical skin-needling, a procedure that stimulates the skin to regenerate and repair itself naturally and safely, creating smoother, younger and healthier looking, brighter skin.

Both men and women can be treated with the Dermaroller and has various beneficial effects including: Anti Ageing, Anti Wrinkle, Cellulite Treatment / Cellulite Reduction or Removal, Skin Smoothing, Hair Loss Treatment / Hair Restoration, stretch marks, scar removal (including acne scarring) and Hyper Pigmentation Treatment.

Nytox / PRP Vampire Facelift

£250.00

Nytox PRP Vampire Facelift is facial rejuvenation using your own platelet rich plasma (PRP) to re-energise cells, create new blood flow and boost collagen production.

This non-surgical cosmetic procedure involving the re-injection of a gel-like substance derived from a patient's own blood back into the skin on the face in an effort to treat wrinkles or refresh and rejuvenate the face. PRP has been used in Orthopedic and Hepatic patients for some decades and was evaluated in other medical fields. Typically, we would recommend this treatment once per year. Blood is taken (in most cases from the arm), and the Plasma is put into a centrifuge machine which spins and separates it from the Red Blood Cells. The Platelets become "activated" which causes the release of growth factors that would normally be used to heal injured tissue. The Platelet Rich Plasma (PRP) is then serially applied to the clean and dry treatment area by injection and dermarolling.

Tear Trough Filler

£390.00

The area between the lower eyelid and upper cheek is referred to as the tear trough – think of the area where your tears glide into when you cry. As we get older this area becomes deeper, darker and more noticeable.

We use a smooth injectable gel known as a dermal filler in order to raise the hollow/valley just beneath your eye to be back at the level of the surrounding tissue. This has the effect of smoothing your skin and reducing the shadow, dark area, and impression of hollow eyes.

Permanent cosmetic makeup is a state of the art form of cosmetic tattooing. The technique deposits tiny individual implants of pigment into the dermal layer of the skin.

Eyebrows

Correctly shaped eyebrows frame your face and eyes, they will make you look younger and more beautiful. Look at any of the catwalks this season and you'll see that eyebrows are where it's at. With stunning shape and definition, beautiful brows can make a striking difference to your appearance.

Lips

Getting older has its good points. Losing your lovely, youthful lips isn't one of them! Fortunately, I can help, with fab colour-replacement techniques to restore fading colour (that's often what makes your lips appear thinner). I can also reshape uneven lip lines, whether caused by the ageing process or by cold sores.
